

THE RULE OF LAW CAMPAIGN
Putting The Winchester Declaration into Action.

COME TO THE GREAT MOOT AT NOTTINGHAM!

Put an end to Treason!

**Start the Process of Restoring the Rule of Law and
Bringing Real Prosperity to All the People!**

For those of us who understand how our country has been deliberately put into distress by our elected servants in Parliament, and know the provable, historical solutions for restoring the Rule of Law, the time has come for us to get properly organised.

Our gathering of five hundred and twenty people in November last year who unanimously passed *The Winchester Declaration* was simply the start. We now have to advance quickly into becoming a broad, grassroots *movement* which can speedily put an end to the treason, fraud and appalling child abuse that is now endemic within the higher echelons of our political class. Unfortunately, time is not on our side. These wretched criminals must be exposed for what they are—and quickly, efficiently and peacefully brought to justice. The clock is ticking... it's time for action!

The task ahead of us will be simple to carry out if we organise well. We are now armed with enormous evidence about what is really happening and engulfing all of us. The following paragraphs describe our present predicament.

Originally of Roman Empire origin and based within the 'Square Mile' of what has become known as the City of London (whose real name is 'The Crown Corporation'), an entrenched, privileged community of wealthy merchants has schemed, manoeuvred and profited for nearly two thousand years to such an extent that today their financial influence is paramount. Indeed, their authority is now global. They unlawfully decide just how much money the world is allowed to spend—"money" which they have *completely conjured up out of thin air* as 'debt', using their privately run international central banking system... Global debt gives these criminal usurers complete political and corporate control; an unelected, unaccountable anti-democratic government over most of humankind!

This shadowy cabal of ruthless, powerful dynastic merchant bankers, using outright treason, secrecy, deception and entrapment, have bought, bullied and blackmailed their way into overwhelming our immutable, magnificent 1215 Constitution with its Common Law Trial by Jury Justice System. This latter is the Law of the Land, *legem terræ* or Common Law, a hard won egalitarian structure of just governance; mankind's model Constitution upon which all the subsequent legitimate Constitutions are based (i.e., the U.S., the Australian, Canadian, etc.).

RESTORE THE RULE OF LAW AND BRING REAL PROSPERITY TO THE PEOPLE.

The Common Law was partially codified by King Alfred the Great, 871-899, and later defined and prescribed in detail in the supreme Law of the Land that is the world-respected Great Charter Constitution of 1215, Magna Carta. It is based on timeless universal secular morality, equity (fairness) and equal justice for all; or what might be called common sense and common decency. Our Constitution's Rule of Law ensures that the people have a **permanent absolute** (that is, an inalienable, insuppressible) **right to judge, and be judged by, their peers** (i.e., randomly-chosen local social-equals; **not** judged by government functionaries; judges). This produces the result that the citizen is considered and must be treated as innocent until proven guilty.

Most importantly of all, *prosecution of unjust, bad or unwanted legislation* passed by parliament can be **annulled** by one or more members of a randomly selected Jury simply finding the accused **Not Guilty**. This is the Duty known as **Annulment by Jury**. At Common Law, **Unanimity** is required for condemnation: there are no 'hung juries'; no majority 'verdicts'. A 'majority' is not a jury. In addition, through private citizens' (single or multiple plaintiffs) *cost-free* prosecutions at Trial by Jury of government bureaucrats and legislators responsible for framing and passing statutes subsequently judged by juries to be unjust (malicious), statutes can be mandated for complete **expunction**; see Two Ways to Equal Justice; Chapter Four, DEMOCRACY DEFINED: *The Manifesto* ISBN 978-1-902848-26-6. **Thus, the reality is that 'ordinary' People have constitutionally authorised Sovereignty over the law and parliament at all times.** The ambitious agenda-driven politicians who *claim* parliament to be 'sovereign', serve corporate-financial vested interests and *treasonously* repress We the People.

Today, under the corrupt influence of the Crown Corporation, our universally just Common Law is being increasingly eroded and replaced by totalitarian statist 'legal' systems which prevail in Continental Europe and the EU; Roman Civil Law, Maritime Law. This alien, and indeed Orwellian nightmare system of statist totalitarianism (with its own unfathomable language of 'legalese') is where you are held as 'guilty' until proven innocent, and where politically-appointed state judges decide your fate—rather than independent juries of your fellow social-equals who *protect themselves* by annulling prosecutions of laws to which they would not like to be subjected.

In support of corporate and private bankowners' financial interests, 'law' is now based almost entirely on commercial and contractual 'law'. It has infiltrated our judiciary and court system where we routinely see judges committing real treason by acting as both 'judge' and 'jury' at the behest of our treacherous parliament. Thousands of 'statutes' have been passed to micro-manage our lives while the proper workings of our Trial by Jury Common Law Constitution are suppressed. We are being compelled by gross deception to surrender our most basic rights and freedoms in order to conform with criminal corporate requirements of The City of London and the Crown Corporation. Parliament has effectively become a citadel of treason and tyranny against the British people.

Sovereign National Credit is a term given to the proven fiscal arrangement whereby a nation's treasury creates, issues and controls debt-free and interest-free money and credit based on that nation's wealth and potential. Despite the historical precedent of the 1914 Bradbury Pound, our elected servants in Parliament *refuse point blank to restore immediately* this common sense, effective way to fund our nation's security, prosperity and happiness. *Why?* Because it would quickly destroy the corrupt power of behind-the-scenes bankowners and the Crown Corporation to overtax and control us through parliament's passing of invasive statutes which illegally 'overrule' the Common Law of the Land, and deny the People's protective Supreme Courts of the Constitutional Common Law Trial by Jury Justice System.

RESTORE THE RULE OF LAW AND BRING REAL PROSPERITY TO THE PEOPLE.

Our MPs are consistently working *against* us. They deliberately look the other way when massive corporate banking **fraud** results in punitive foreclosures, the stealing of homes, property and business livelihoods from completely innocent people.

MPs don't really give a damn that social care is letting down the vulnerable in our society, and that the NHS is *unnecessarily* closing community hospitals and making cuts in other essential services.

MPs don't care at all that our armed services are being cut back to the point that our nation's defences and sovereignty are dependent upon other nations.

And MPs just can't be bothered to protect our strategic industries from predatory, hostile takeovers by businesses from overseas.

MPs are a criminal disgrace—*all* the political parties are working *against* us, *against* We the People. It's time to stir our nation to put a peaceful end to unjust, arbitrary rule administered with injustice; in a word: tyranny.

SO, COME TO JOIN US AT NOTTINGHAM ON APRIL THE 22nd.

Come to Nottingham on April the 22nd to meet up with old friends and new kindred spirits. **This is YOUR conference**, a real **Moot**, where we can organise properly into becoming an effective grassroots **MOVEMENT** to *restore* our Trial by Jury Common Law Constitution which criminalises Usury and bankowners' fraudulent Fractional Reserve Lending; *restores* interest-free national issuance of currency and credit; and *restores* the debt-free Treasury-issued Bradbury Pound, whilst at the same time exposing and ending Establishment-led child abuse.

It's obvious that agents of the Crown Corporation will do their utmost to infiltrate and troll what we are doing—so it is vital that we set our movement up in a non-hierarchical way by creating a linear network of dozens, if not hundreds, of self-contained community 'hubs' where people can meet up locally and campaign with like-minded individuals. For the skills and information needed for these hubs to be successful, there will be ten discussion groups or workshops to choose from, where you can both learn new information and contribute with your own experiences and ideas.

Brought together and facilitated by the **British Constitution Group** and the **Democracy Defined Restoration Campaign**, this is your day and your venue in which to work together to restore The Rule of Law to the British nation.

If you are inspired by The Winchester Declaration to join us in our campaign to restore the Rule of Law, we strongly urge you to purchase DEMOCRACY DEFINED: *The Manifesto* ISBN 978-1902848-26-6 from Amazon. It is an excellent resource for facts, information, the true meaning of democracy, and explains how our Trial by Jury Common Law Constitution works to protect us all.

The current edition of *The Manifesto* was officially published and registered with the British Library on the 19th of November, 2016, to celebrate and coincide with the day of **The Winchester Declaration**. It also contains the text of **The Restoration Amendment**, the statute required to restore the Rule of Law to Britain.

To summarise the Rule of Law Campaign, the principal foci are:

Firstly, recognition of the 1215 Great Charter Magna Carta as comprising the single and sole legal and lawful English (and British) Constitution; the permanent supreme treaty between the People and the successive incumbent heads of state. This measure achieves Restoration of the all-powerful People's Courts of the authentic Constitutional Common Law Trial by Jury Justice System as prescribed and defined by the 1215 Great Charter Constitution for all causes (lawsuits), civil, criminal and fiscal; and,

Secondly, Common Law economic measures are a natural corollary to the above first item for specifically proscribing the Common Law Crimes of Usury and fraudulent Fractional Reserve Lending and returning to the People (through a national government department; treasury) the duty of issuance of *interest-free* currency and credit to the economy (as, for example, by Presidents Jefferson, Madison and Jackson, or Lincoln's 'greenbacks', Franklin's Colonial Scrip, and in 1914, the UK's £300 million issuance of the 'Bradbury Pound').

These twin causes are legislatively formulated as THE RESTORATION AMENDMENT, THE POLITICAL PROGRAM FOR INDEPENDENT CANDIDATES.
